Professional Summary

Full Stack Developer with 2+ years of hands-on experience architecting scalable web applications and low-latency, real-time data systems. Specialized in **Node.js** microservices, **PostgreSQL** databases, and SEO-optimized **Next.js** frontends. Experienced in end-to-end **Zoho Commerce** implementations and multi-app suite integrations (SalesIQ, Forms, Inventory, Books). Proven ability to own the complete software development lifecycle and deliver production-ready solutions in high-velocity teams.

Work Experience

- Software Developer**, *PlayCKC Interactive Pvt. Ltd.*

01/2025 – 04/2026

 - Developed and maintained scalable **Node.js**, **TypeScript**, **Express.js**, and **PostgreSQL** applications, improving performance, scalability, and reliability.
 - Built high-performance **REST APIs**, real-time sports data pipelines, and automated background jobs for low-latency live match updates and user engagement.
 - Designed and implemented full-stack features including the **PlaySuper Reward Store**, **Referral System**, and **AngularJS** admin portal for operational management.
 - Integrated **SportMonks API**, **Google AdMob**, and **Xoxoday API**, while collaborating in Teams using **Git** and **Jira**.
